AMEND Senate Bill No. 3076*

House Bill No. 3372

by deleting subdivision (c)(2) of the amendatory language of Section 1 and by substituting instead the following:

(2) The board is authorized to register an electrologist to practice in this state without taking the required examination when an out-of-state license has not been issued to a person if the person provides proof satisfactory to the board that:

(A) The person requesting a license has practiced electrology for five (5) years or more in another state which does not require a license for such practice and such person is a certified electrologist; or

(B) The person requesting a license meets requirements as determined by rules adopted by the board of electrolysis examiners.
